

NEW MINISTER FROM CHINA IS ABLE YOUNG MAN

Dr. V. K. Wellington Koo, Who Will Represent Yuan Shi Kai at Washington, Has Doctorate From Columbia.

Washington, Oct. 25.—The United States government has been officially advised of the intention of China to send Dr. V. K. Wellington Koo to Washington as minister in place of Kai Fu Shih, who is being recalled. Today's announcement from Peking followed receipt of word there through American Minister Finley that the American government would be pleased to receive Dr. Koo.

Protégé of Yuan Shi-kai.
The change in ministers is considered of much significance. Dr. Koo is a protégé of President Yuan Shi-kai and for years was his private secretary and interpreter. Since the resignation of Sun Pao-chi from the portfolio of foreign affairs, it has been generally understood that his friend Kai Fu Shih, the present minister here, also would resign. There have been intimations, too, that the latter would be recalled because it was alleged he did not furnish comprehensive reports of the state of American public opinion or take an active part in the policy here in connection with the recent Japanese-Chinese negotiations. So far as the Washington government is concerned, Kai Fu Shih's presence here has been continuously acceptable.

Graduate of Columbia.
The sending of Dr. Koo, who spent eight years at Columbia university, receiving a master of arts degree and a doctorate of philosophy, is taken to indicate a desire on the part of President Yuan Shi-kai not only to have in the United States a personal representative conversant with American customs and diplomacy, but to be prepared in the event of the European powers ultimately against American mediation in the war, to have the interests of China here in the hands of one thoroughly familiar with Chinese aims and aspirations. Dr. Koo is understood, also, to be sympathetic with the proposed change of China from a republic to a parliamentary monarchy. He took an active part in the recent Japanese-Chinese negotiations in Peking. As undersecretary of the Chinese foreign office, he was one of the commissioners that conducted the parley with the Japanese minister and is credited with having written much of China's reply to the Japanese ultimatum.

Under 25 Years Old.
The prospective minister to the United States is under thirty years of age and speaks English perfectly. He made a brilliant record in Columbia university, being elected to the Phi Beta Kappa society for scholarship. Being a friend of the president of China, he is a favorite of Lin Tse-hsueh, the present minister of foreign affairs. His wife is the daughter of Tung Shiao Yi, the first minister of foreign affairs of the new republic.

When Dr. Koo arrived in Washington three weeks ago he had been appointed Chinese minister to Mexico. He was presented to Secretary Lansing by Kai Fu Shih and Mr. Lansing entertained him at dinner. Dr. Koo sailed from New York on October 2 for France and England on a mission that has not been questioned here. He is at present in London and is expected to return to Washington in a few weeks to present his credentials.

Similar steps will be taken if hereafter arms and ammunition are found in possession of the residents of Brussels.

MANIFESTO IN OPPOSITION TO CONSCRIPTION

Members of Parliament Declare Labor Elements of England Would Not Submit to Compulsory Service Law

London, Oct. 25.—(via New York).—A manifesto opposing conscription has been issued by a comparatively small number of members of parliament.

Among the reasons given for such opposition is that the compulsory system would deprive the ranks of the industrial workers that Great Britain would be unable to fulfill obligations assumed in behalf of the allies to supply them with stores of munitions and give them substantial financial help.

It is further declared that conscription would arouse bitter opposition among the workingmen and eventually destroy national unity which is essential to the successful prosecution of the war.

The manifesto is signed by the Right Hon. Charles K. H. Hollis, a former member of the British cabinet, at chairman, Henry Alden, liberal member of the Tottenham division of Middlesex, who has written much on the question of the unemployed, as vice chairman, and John Howard Whitehouse, liberal member for mid-Lancashire, also identified with labor reform as secretary.

**IMPERIAL VALLEY
LAND TITLE CLEARED**
Washington, Oct. 25.—Adjustment of conflicting claims to land in the Imperial valley in California was completed today by the interior department and Secretary Lane announced that 7,500 acres of land had been found free from claims. This acreage will be opened for immediate settlement under the department's regulations.

Evidence of the first government survey in the Imperial valley in 1914 were so completely removed by the elements that confusion resulted some fifteen years ago when settlers, beginning to appropriate the possibilities of the rich soil, flooded to this region to take up land. In 1902 congress authorized a survey. For seven years the department has been studying the disputed claims, shown by the results.

Aviator's Nose Broken.
San Francisco, Oct. 25.—Charles Niles, an aviator at the Panama-Pacific exposition, had his nose broken today when he made a bad landing in the presence of many thousand school children who were given a half holiday from the city schools to see Thomas A. Edison. Niles, apparently rolled over and he fell out when he misinterpreted himself.

First chief Carranza has issued a decree renewing the absolute prohibition upon the export of rice, beans, corn, wheat and flour, which has been in force for several months and also forbidding the exportation of pork, barley, lentils, beans, the various kinds of sugar and of such cows, except upon the specific authorization of the constitutional government.

The decree also provides for free importation of all the above mentioned articles of prime necessity and of preserved meats and fish, table oil, cereals, fruits, garden produce, vegetables, seeds and feeding grains, manufactured products of flour and other cereals, including crackers and macaroni and also cotton seed. Free port duties beginning October 20 have been imposed on vegetables and minerals, alcohol, cotton, rice, tobacco, textiles, and hemp products, beer, woods of various kinds, pearls and bananas.

**500,000 ARMENIANS
VICTIMS OF TURKS**
Washington, Oct. 25.—If H. H. Tamm, former chief justice of the United States, submitted to Secretary Lansing today an appeal urging that the United States government do everything in its power to bring to an end slaughter and persecution of Armenians in the Turkey.

Mr. Tamm said he had received news that among the slain Armenians were many of his own friends and relatives. In the memorandum he gave Secretary Lansing, he declared that the atrocities against the Armenians had resulted in 500,000 persons being driven from their homes, tortured or murdered. How many had been slain he said it was still impossible to estimate. Thousands, he declared, who had taken refuge in Egypt and Asia Minor were being starved.

Secretary Lansing assured Mr. Tamm that President Wilson had taken keen interest in the Armenian situation and that the government was doing all it possibly could under the circumstances. He said he would present the appeal to President Wilson.

**GREATEST HORROR OF
WAR IN ARMENIA**
London, Oct. 25.—(via New York).—Victor Gollancz, the former British ambassador in Washington, speaking at Manchester today in condemnation of the Armenian massacres, said: "The Turkish government made up its mind immediately after the war started to destroy the whole Armenian population. It was agreed by some members of the Turkish government that their motive was to wipe out the Armenians as a race. It was agreed that the Armenians should be exterminated throughout the country which was not a Mohammedan. The Turkish government feared to begin its sanguinary work until April, when the centre of the war convinced them that they could count upon their bloody work securing from interference."

No other incident connected with the war, declared Mr. Gollancz, would compare in magnitude with the horrors of the Armenian massacres. But protests now accomplish nothing. All the English people could do was to send all the help possible to the Armenian refugees.
